About Women's Habitat:

For more than 30 years, Women's Habitat has been providing emergency shelter, support, advocacy and counselling to thousands of women and their children fleeing violence.

We operate a 25-bed shelter where women and their children receive food, support, counselling and referrals to other community services, such as legal aid, subsidized childcare, subsidized housing, welfare, translation/interpretive services, employment counselling and assistance with immigration/refugee claims. The average stay for families is four to six months, while they wait for affordable housing.

Outreach Program: Women's Habitat as one of the most comprehensive outreach programs in Toronto. Our programs include Abused Women's Group in English and Spanish; Girlz Space After-School Program for girls ages 10 to 13; Parent/Child Drop-In; Parent Relief; Respite Care and more. We also offer short-term one-on-one counseling in English and Spanish; transitional support; housing support and counseling for Young Women ages 14 to 24.
